

IBM Ring 101 presents the Lance Pierce Magic Lecture

Lance Pierce is a performer, author, editor, teacher, creator, consultant, and magician specializing in the practice of sleight of hand in close-up and platform venues. He was a featured entertainer at the world-famous Malone's Magic Bar at the Boca Resort and Hotel in Boca Raton, Florida, and is a prolific writer of books, booklets, magazine articles, and essays.

A lecture with Lance Pierce is like a table-side conversation, a session, an exploration of effects both close-up and platform. It's a discussion about sophisticated magic at its root level with every detail exposed in a relaxed and easy-going manner. During any given talk, you may see tricks using cards, coins, silks, knives, rings, or anything else. What you'll see are effects that have been honed over decades of experimentation and analysis. You'll get the reasons behind everything and everything behind the reasons. The content may run the gamut from platform stand-up routines to bar magic to formal close-up table effects. There's surely something for everyone.

Heavily influenced by the likes of Roger Klause and Michael Skinner up to contemporaries like Bill Malone, Lance has entertained audiences from all over the world with a unique touch and 30 years of dedicated practice.

He's taught masters-level courses in business writing for Florida International University, has contributed multiple articles to every major American magic magazine, has published his own non-magic periodical, reviewed products, edited top-selling books, provided concept designs for best-selling DVDs and other media, collaborated on video productions, and organized events and conventions for magicians.

For all his activity, Lance is the quiet magician, casually reserved, not impulsive but pensive, always watching. Heavily influenced by generations of masters, he's brought his craft to the stage, to platform, to hospitality suites, private parties, bars, restaurants, and corporate events. He's entertained audiences from all over the world with a unique touch and 30 years of dedicated practice.

For Lance, a big part of magic is that never-ending process of searching for the next beautiful idea.

Join us next week to learn magic from Lance and maybe find your own next beautiful idea!

When: Wednesday, October 19, 2011 @ 7pm
